

IN THE SHADOW OF GOLIATH - PRESS KIT

Will Blesch

Will Blesch investigates the ancient conflict between divine beings, giants, and unidentified intelligences.

IN THE SHADOW OF GOLIATH

For centuries, ancient Jewish texts, early Christian writings, and global mythic traditions have described encounters with beings who blur the line between the divine, the terrestrial, and the extraterrestrial. While modern culture often dismisses these accounts as allegory, new discoveries in archeology, astronomy, and UAP research are forcing a reevaluation of the oldest stories humanity has preserved.

In this book, Will Blesch brings together biblical scholarship, Second Temple literature, Ancient Near Eastern cosmology, and today's UAP data to explore a provocative but deeply researched question:

What if the giants, angels, and "gods" of antiquity were real, and their influence never really disappeared?

You see, history is a mosaic of forgotten truths. And, once the pieces come together, the picture changes forever.

Will Blesch is a dual American-Israeli citizen, researcher, and storyteller with a passion for uncovering history's hidden intersections. A former member of Israel's Bayit Yehudi central council, he has been deeply engaged in both the political and theological landscapes of the Middle East.

Professionally, Will has served as the marketing director for The Adizes Institute, where he led global campaigns, and has worked across media productions in multiple countries.

A Messianic believer with a deep love for Jewish texts and ancient history, he approaches his work through a unique interdisciplinary lens - bringing together theology, exopolitics, and cultural analysis to explore the unseen forces shaping human destiny.

The Endorsement

“Author Will Blesch and I diverge on many counts. On this we resoundingly agree: life is a search.

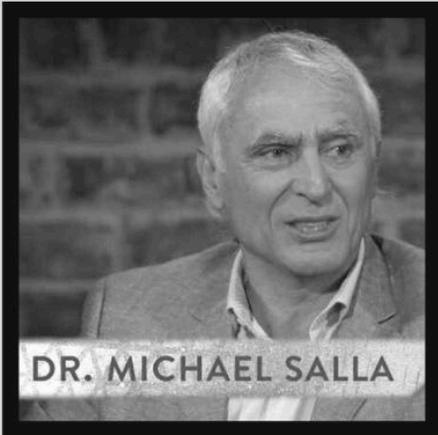

Will embarks on that search through the lens of independent Bible and archaeological study, probing the heterodox question of primeval giants and other mysterious beings once (still?) roaming earth.

Most academics will hate his book. That is because they believe that you, the reader, lack discernment.

Will does not believe that.

That is why you should read him, and because you will fall into his vivid, adventurous, and transparently sourced narrative.”

*"I am pleased to recommend and support the forthcoming book *In the Shadow of Goliath* by Will Blesch.*

He presents a detailed and compelling story about the true nature and history of what we call the Nephilim, and how the ancient Neanderthal and Denisovan may fit into this story.

A compelling read, a great work of scholarship, and a wonderful addition to explaining what many would regard as a mythical and fictitious past that clearly seems to be actual historical fact."

"After more than 75 years since Roswell, it's nearly impossible to write about UFOs with a fresh perspective - and yet, that's just what Will Blesch has done.

In the Shadow of Goliath is easy to read, yet very informative regardless of how familiar readers are with UFO research.

His analysis is solid, biblical, and pulls back the veil on the inhuman entities responsible for those mysterious lights in the sky."

“Will Blesch has done a deep dive into topics most Christians avoid altogether and others label as ‘Fringe!’ Yet, Scripture plainly points out that at the time of Jesus’ return it will be like the Days of Noah.

In other words, the Nephilim will be walking amongst us! Will Blesch exposes the deception of the Prince of the Power of the Air.

Buckle up, put on your armor, and get ready to dive into the deep end of the pool!”

INTERVIEW QUESTIONNAIRE

We've curated a set of bold interview questions for *In the Shadow of Goliath* by Will Blesch, which explore the subjects of biblical entities within the light of modern UFO/UAP research, 2nd Temple era literature, rabbinic texts, early Christian tradition, and more.

Feel free to use or adapt the following questions to suit your audience or format.

1. Your book explores angels, the Nephilim, and UFOs/UAPs through the lens of history, theology, and mythology. What first drew you to connect these seemingly separate subjects?
2. Many people dismiss stories of Nephilim and biblical giants as mere myth. What evidence do you present that suggests these beings were real and historically significant?
3. You challenge both secular academia and religious institutions for suppressing inconvenient truths. Why do you believe these topics have been deliberately buried?
4. How do UFO encounters today parallel ancient biblical and mythological accounts of angelic beings?

INTERVIEW QUESTIONNAIRE

5. What role do you see the Nephilim and fallen angels playing in the unfolding of biblical prophecy?
6. You make a distinction between the “ancient astronaut theory” and your own conclusions. How does your approach differ from figures like Erich von Däniken and Zechariah Sitchin?
7. In your research, what archeological discoveries most powerfully support the claims of a hidden, supernatural influence in human history?
8. The book’s subtitle mentions “interdimensional war.” How do you define this war, and what does it mean for humanity today?
9. For readers of faith, how should Christians specifically, prepare themselves to discern truth from deception as these suppressed realities come to light?
10. You call this book a “Sledgehammer” to walls of dogma and suppression. If readers take only one truth from *In the Shadow of Goliath*, what do you hope it will be?
11. You describe a personal, childhood encounter with a black triangle UFO in your introduction. How did that early experience set you on the lifelong path of researching the unexplained?
12. What was the turning point where you realized these topics weren’t just myths or fringe ideas, but part of a larger, suppressed history?
13. The Nephilim are mentioned briefly in Genesis but loom large in your book. What clues do the biblical and extra-biblical texts give us about who they were, and why their presence matters to us today?
14. One of your most provocative arguments is that biblical angels and modern UFOs may be describing the same phenomena through different cultural lenses. Can you unpack that idea?
